Safe-Hit® Guardrail & Cable Barrier Delineator

DELINEATORS

Safe-Hit® Guardrail & Cable Barrier Delineator

The Safe-Hit® Guardrail and Cable Barrier Delineators provide highly visible day and nighttime delineation by mounting directly to the barrier systems. Manufactured from the same durable polymer used in the proven Safe-Hit® Delineator Post, these flexible delineators improve roadway guidance while withstanding harsh environmental conditions.

Safe-Hit® Guardrail and Cable Barrier Delineators are available with multiple mounting options and can be customized in a variety of lengths, colors, and reflective configurations to meet agency requirements.

ASSEMBLY AND MAINTENANCE

- Ready to install
- No field assembly required
- Multiple mounting options available
